First Attempt Success

Led by Dr. Malkanthi Galhena | Experienced MRCGP International Examiner

Programme Overview

A focused and structured OSCE preparation programme designed to help candidates strengthen consultation skills, clinical reasoning, examination technique, communication and safe patient management. The programme combines examiner-led teaching, realistic practice stations and personalised feedback to support confident exam performance.

Training Options

Format	Schedule	Start Date
Online Group Sessions	Every Wednesday at 9.00 p.m.	20 May 2026
Physical Sessions – Colombo	Every Saturday at 2.00 p.m.	23 May 2026
Individual Training	Flexible sessions based on candidate requirements and trainer availability.	By arrangement

Core Curriculum

- OSCE structure, station approach and time management
- Patient-centred consultation and communication
- Focused history-taking and identification of red flags
- Clinical examination and interpretation of findings
- Evidence-based management and prescribing
- Chronic disease, mental health, women's health and child health
- Acute presentations and emergency recognition
- Difficult consultations, ethics and professionalism
- Safety-netting, referral and follow-up planning

Teaching Methods

- Examiner-led discussions
- Simulated patient consultations
- Timed OSCE stations
- Clinical examination practice
- Structured marking grids
- Individual feedback
- Full mock examinations

COURSE FEE – LKR 35,000

Expected Outcome

Candidates will develop a safe, organised and patient-centred consultation style, improve station performance, strengthen clinical decision-making and approach the August 2026 OSCE with greater confidence.
